Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 353 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 353 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (703) 305-1383. Notice of Fee Increase on October 1, 2004

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2004, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" because an increase in fees effective on October 1, 2004 is anticipated. See Revision of Patent Fees for Fiscal Year 2005; Proposed Rule, 69 Fed. Reg. 25861, 25863, 25864 (May 10, 2004).

The current fee schedule is accessible from WEB site (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2004 (or mailed with a certificate of mailing on or after October 1, 2004), the issue fee paid should be the fee that is required at the time the fee is paid. See Manual of Patent Examining Procedure (MPEP), Section 1306 (Eighth Edition, Rev. 2, May 2004). If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See MPEP Section 1308.01.

Effective October 1, 2004, 37 CFR 1.18 is proposed to be amended by revising paragraphs (a) through (c) to read as set forth below. As stated above, the final fee may be a different amount, and applicant should check the WEB site given above when paying the fee.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
 - By a small entity (Sec. 1.27(a))..... \$670.00
 - By other than a small entity..... \$1,340.00
- (b) Issue fee for issuing a design patent:
 - By a small entity (Sec. 1.27(a))..... \$245.00
 - By other than a small entity..... \$490.00
- (c) Issue fee for issuing a plant patent:
 - By a small entity (Sec. 1.27(a))..... \$325.00
 - By other than a small entity..... \$650.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

1. Claims 5-40 are pending in the application.
2. Claims 5-13, 15-25, 27-37, 39 and 40 have been allowed.
3. Claims 14, 26 and 38 have been cancelled.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dorian Cartwright on August 19, 2004.

The application has been amended as follows:

E1
Claim ~~8~~¹. (amended) A computer-implemented system for protecting a network, comprising:
a vulnerability detection system (VDS) for gathering information about the network to determine vulnerabilities of a host from a plurality of hosts on the network; and
an intrusion detection system (IDS), cooperative with the VDS, for examining network traffic responsive to the vulnerabilities of the host from the plurality of hosts as determined by the VDS to detect traffic indicative of malicious activity.

E2
Claim ~~17~~¹². (amended) A computer-implemented method for protecting a network comprising:
gathering information about the network to determine vulnerabilities of a host from a plurality of hosts on the network; and

Art Unit: 2131

E²
cooperative with the step of gathering information, examining network traffic responsive to the determined vulnerabilities of the host from the plurality of hosts to detect network traffic indicative of malicious activity.

²³
Claim 29. (amended) A computer program product, comprising:

a computer-readable medium having computer program logic embodied therein for protecting a network, the computer logic:

E³
gathering information about the network to determine vulnerabilities of a host from plurality of hosts on the network; and

cooperative with the step of gathering information, examining network traffic responsive to the determined vulnerabilities of the host from the plurality of hosts to detect network traffic indicative of malicious activity.

Allowable Subject Matter

5. Claims 5-13, 15-25, 27-37, 39 and 40 are allowed.

The following is an examiner's statement of reasons for allowance. As to independent claims 5, 17 and 29, prior art teaches the use a vulnerability detection system (VDS) for gathering information about the network to determine vulnerabilities of one or more hosts on a network (i.e. Todd, Sr. et al US 6,185,689 B1). Prior art also teaches an intrusion detection system (IDS) for examining network traffic responsive to the vulnerabilities of the host from the plurality of hosts as determined by the VDS to detect traffic indicative of malicious activity (i.e. Teal US 6,477,651 B1).

However, prior art does not disclose, teach or fairly suggest that the IDS operates cooperatively with the VDS.

Art Unit: 2131

Todd, Sr. et al differs from the current application in that it is purely a VDS. The method assesses security vulnerabilities of one or more target hosts by a remote or local host via a server. However Todd, Sr. et al does not have an IDS for examining the network traffic responsive to the vulnerabilities of the host determined by the VDS. Teal differs from the current application in that it is purely an IDS. Vulnerabilities are determined by analyzing network traffic. Signatures associated with each network vulnerability are determined by investigating specific patterns on network data associated with an attack on the vulnerability.

The dependant claims, being further limiting to the independent claims, definite and enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
